PROFESSIONAL SUMMARY

Aspiring Prompt Engineer with a strong foundation in Java, Python, SQL, Selenium, and web technologies. Passionate about Generative AI and Large Language Models (LLMs), with hands-on experience using AI tools to create prompts, generate content, summarize information, and support problem-solving. Experienced in automation, software development, and building responsive applications through academic and personal projects. Eager to contribute to AI-driven solutions while continuously expanding expertise in Prompt Engineering and Generative AI.

TECHNICAL SKILLS

Generative AI: Prompt Engineering, ChatGPT, Google Gemini, Large Language Models (LLMs), Prompt Design & Optimization, AI-assisted Content Generation

Programming: Java, Python, JavaScript

Database: SQL, MySQL

Automation: Selenium WebDriver

Web Technologies: HTML, CSS, React.js

Tools: Git, GitHub, VS Code, Eclipse, Microsoft Excel

Core Concepts: Object-Oriented Programming (OOP), SDLC, Debugging, Problem Solving, Data Structures (Basics)

PROJECTS

Personal Portfolio Website

React.js | HTML | CSS | JavaScript

- Developed a responsive personal portfolio website to showcase technical skills, projects, certifications, and professional profile.
- Built reusable React components with a clean and responsive user interface.
- Integrated GitHub, LinkedIn, contact information, and resume download.
- Designed for cross-browser compatibility and mobile responsiveness.

Google Search Web Automation

Python | Selenium

- Automated Google Search using Selenium WebDriver.
- Extracted search result titles and URLs programmatically.
- Improved browser automation workflow using Python.

Travel Management System

Java | JDBC | SQL

- Developed a backend application using Core Java, JDBC, and MySQL.
- Implemented CRUD operations for booking and user management.
- Wrote SQL queries for efficient data retrieval and storage.
- Applied exception handling, debugging, and input validation.

Automated ETL Pipeline

Python | MySQL

- Developed an ETL pipeline to extract, clean, transform, and load CSV data into MySQL.
- Performed data validation, transformation, and duplicate removal.
- Used SQLAlchemy for structured database integration.

Online Examination System

Java | Swing

- Built a desktop-based quiz application using Java Swing.
- Implemented scoring logic, user navigation, and exception handling.
- Applied Object-Oriented Programming principles and functional testing.

INTERNSHIP EXPERIENCE

Cloud Application Developer Intern

Rooman Technologies Pvt. Ltd.

- Assisted in debugging, testing, and deployment support.
- Supported application validation and issue resolution.

Frontend Developer Intern

Mevi Technologies LLP

- Developed responsive UI components using HTML, CSS, and JavaScript.
- Improved interface usability and resolved UI issues.
- Used Git for version control.

Python Intern

Parvam ConsulTech Pvt. Ltd.

- Worked on Python-based mini projects.
- Applied data handling and problem-solving techniques.

EDUCATION

B.E in Information Science & Engineering – R.R Institute of Technology | CGPA: 8.02 | 2021 – 2025

Higher Secondary – SRS PU College | 77% | 2019 – 2021

Secondary – Kuvempu English Medium High School | 87.36% | 2018 – 2019

CERTIFICATIONS

- Java & Python Full Stack Development – Vstand4u Solutions
- Cloud Application Developer (NASSCOM) – Rooman Technologies
- SQL for Data Management – Cuvette
- React JS Tutorial – Cuvette
- IBM Cloud: Data Backup & Recovery Using Object Storage
